Driving emission reduction policy

Introduction and aim

Junkwize Ltd is a waste management business, operating from a site in London. Our main services are non-hazardous & hazardous waste removals. We recognise that our operations result in emissions into air. It is our aim to comply with legislation and other requirements, and to do all in our powers in order to continue to reduce the environmental impacts of our business and operate in an environmentally responsible manner. This policy describes how to reduce our fleet CO2 Emissions through good driving practices.

Responsibility

This environmental policy applies to all of our operations on the road and not just, including every single staff member driving a vehicle, may it be a company vehicle or a private vehicle. Alessandro Maccioni Managing Director has overall responsibility for ensuring that sufficient resources are made available to enable the business to achieve our environmental objectives and targets and that the policy is implemented.

Lorenzo Cappella Operations Manager and Anthony Skorczewski have the day to day responsibility for ensuring that the requirements of this policy are being followed and for monitoring the effectiveness of the objectives. However, all employees have a responsibility in their area to ensure that the aims and objectives of the policy are met.

Objectives

During 2023 and 2024 we aim to:

- Reduce to a minimum idling times
- Make routine checks to vehicles tyre's threads with appropriate tools
- Keep transport use to a minimum and regularly service vehicles to maintain their efficiency
- Make sure vehicles are loaded correctly so to reduce petrol usage and tires consumption
- Include environmental considerations in investment decisions for new plant, equipment or working practices
- Inform and train all employees of the company's good driving practices

Company Number: 08222250

Company Number: 08222250

Targets

To achieve our aims, we have set ourselves the following targets:

- reduce vehicle's emissions to air by consistently monitor tyres threads and proactively change worn tyres
- reduce vehicle's emissions to air and tyres usage through correct loading of the vehicle
- reduce vehicle's emissions through staff training on good driving practices as such as avoiding abrupt accelerations, stirring or breaking whenever possible
- Reduce vehicle emissions to air by the scheduling of work to reduce mileage and servicing all the vehicles
- Reduce vehicle's emissions to air by training staff to reduce idling times

Monitoring and auditing

Progress against these objectives will be monitored through a number of mediums including :

- Regular internal audits of environmental procedures
- Annual management review of this environmental policy and associated environmental procedures
- The monitoring of environmental objectives and associated KPI's / targets
- Monthly management meetings.

Communication

This good driving practices policy is available at our head office and is distributed to all Staff vial Atlas. All members of staff will receive training on the environmental impact of different driving and vehicle's maintenance standards and responsibilities of their role, and will be informed of any updates or revisions via Atlas, e-mail or team meetings.
